About the Glow in Asia IX:

GLOW in Asia offers a forum for presentation and discussion of advanced research in theoretical linguistics. Its conferences take place within Asia but attract participants from all over the world. In addition to the main conference, there will be a half-day workshop on experimental linguistics on the final day of the conference, September 6, 2012. The goal of this workshop is to provide an occasion for researchers, who are working on any aspect of linguistics using a variety of experimental methods and tools, to present their most up-to-date research findings, exchange ideas and address new questions for further research.
